

# Finding energy savings of 4 million euros in just 6 months

## The Challenge

Kiloutou is the French leader in equipment rental, with over 400 outlets throughout the country. Committed to a CSR approach, Kiloutou monitors its environmental footprint, publishing annual indicators on energy and water consumption as well as its carbon emissions.

**1. The company came to Deepki with two objectives:**

- **Establishing** a precise energy management system to identify savings
- **Facilitating data collection** for the publication of its CSR

## The Results

- **600 invoices**/month collected automatically
- **Detailed** detection of excess consumption
- **In 18 months**, 40 actions detected for annual savings of nearly €80,000 excl.tax.

Client **Kiloutou**

Localisation **Europe**

Sector **Retail**

Skills **#Data  
#ESG  
#Cost Efficiency**

**30%**

**Energy consumption delta** (representing €3,000 excl.tax/year) between 2 comparable sites in the same city

**5 sites**

with regulated heating equipment sites for **energy savings** of nearly €12,000 excl.tax

**Over 20**

**Contracts optimized** of nearly €40,000 excl.tax

**600**

**Energy and water bills** automatically imported into the application

# Solutions

## Data Collection

**Building data:** description of sites, surface areas, locations, equipment, etc.

**Energy and water data:** invoices retrieved automatically from water & energy suppliers' customer portals

**Activity data:** revenue per branch, number of employees

## Detection of excess consumption:

**Identification of 80 sites** with excess consumption

**Implementation of rotating remote meter readings** at several branches, to pinpoint the source of anomalies

## Building an action plan:

**Proposals** for a savings action plan

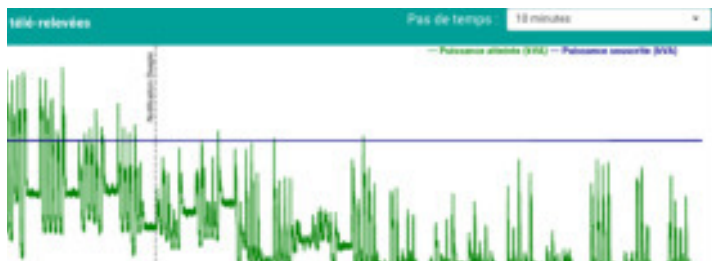

**Validation** by Kiloutou's technical teams

**Actions and savings** realized are monitored directly in the application

## Price optimization:

**Automatic detection** of potential optimization for electricity contracts

**Automated data collection following the regulation plan recommended by Deepki**

**“With Deepki’s help, we set up an efficient energy management system that lets us target and resolve any excess consumption, prioritizing actions with rapid return on investment.”**

Stéphane TIMOSSI

Works Director

## About Deepki

As early as 2014, Vincent Bryant and Emmanuel Blanchet realised that data-driven ESG strategy would be key to reforming real estate for the good of the planet. Today, leading international corporations and government organizations turn to Deepki to improve their environmental performance at scale.

**We believe that virtuous real estate is the way forward**

Today, Deepki is active in 38+ countries, with offices in Milan, Madrid, London and Berlin, and trusted by Allianz and JLL, as well as the French government.
